## Product Description

### Product Description

GE FANUC IC695EIS001 RX3i Ethernet IEC 104 Server Module

### Technical Application

The RX3i Ethernet IEC 104 Server Module hosts the IEC104 Server side protocol on a common RX3i ETM001 module hardware platform. Thus, many of the specifications and behaviors are shared with the ETM001 module including protocol support. IC695EIS001 is an Ethernet-connected module that fits in the RX3i backplane and permits the RX3i to behave as a Server on the IEC104 network. The data exchanges between the EIS001 module and IEC104 Client(s) are configurable, using a single COMMREQ instruction in the ladder logic or Structured Text program.
