Product Description

Product Description

ABB PM866K01 3BSE050198R1 AC 800M CPU Processor Module

Technical Application

The AC800M controller is a series of guideway mounted modules, including the CPU, communication module, power module, and various accessories. There are several CPU modules to choose from, with varying processing power, memory size, and redundancy support. Each CPU module is equipped with two Ethernet ports for communicating with other controllers. There are also two RS-232C ports for point-to-point communication between the CPU and programming/debugging tools, as well as third-party systems and devices.
